Lithink that was the play:
The house was packed from pit to dome
With the gallant and the gay,
Who had come to see the tragedy,

And while the hours away.

To see the play of crime.

There was the ruined spendthrift, And beauty in her prime:
There was the grave historian,
And there the man of rhyme.

And the surly critic, front to front,

And there was pampous Ignorance, And Vice in flowers and lace; Sir Cresus and Sir Pandaurus, And the music played apace. But of all that crowd I only saw A single, single face!

That of a girl whom I had known

It is proposed to do away with the independent fast freight lines by rushing the freight trains of the companies at a higher rate of speed, and to stop the practice of renting rolling stock at high rates. The companies will thereby make all the money to be made out of fast freight for themselves. It is proposed also to abolish special trains for railway officials, and make them ride in the ordinary trains. It is said that a huge leak in the treasuries comes from this source alone. The carnings of the roads under these reforms will be so much larger that they can afford to pay better wages to their men. JENNIE COLLINS, of Boffins Bower, in

times and the ups and downs of fortunes. She says: "Many kind ladies who have hired their servants of me in past wears have been obliged to apply for employment themselves of late. I sent a lady to a hotel as housekeeper, and the most humiliating part of it was that her room was in the attic with two of her former servants. Another case was that of a girl who learned that her former mistress was in distress and without a home. She immediately consulted her husband, and assured the lady that it was her care, instruction and training that made her what she was; therefore, she was welcome to the best her house afforded."
